JOB CODE (CLASS) INDEX

2001/2002

September 2001

DOCUMENTS DEPT.

OCT 26 2001

SAN FRANCISCO
PUBLIC LIBRARY

INFORMATION INCLUDED IN THIS INDEX IS SUBJECT TO CHANGE DURING THE FISCAL YEAR.

The index has two parts: 1) City and County classifications (job codes) listed in alphabetical order by job title; 2) classifications listed in numerical order by job code. The information is the same in each part, just arranged differently. There are separate alphabetical and numerical listings of classifications used exclusively by the San Francisco Unified School District and San Francisco Community College District, and the San Francisco Trial Courts. The Department of Human Resources does not administer salaries for these departments. Contact the School District or Trial Courts personnel office for salary or other information about positions in those departments.

Rates of pay shown in this index are those in effect at the end of the fiscal year. The majority of classes are represented by labor organizations which negotiate the wages, benefits, terms and conditions of employment for various bargaining units. As a result, various bargaining units may include classifications with different rates of pay and/or wage increases which go into effect at different times in the fiscal year. For the most current salary information please refer to the online version of the Compensation Manual at www.ci.sf.ca.us/dhr.

Most positions are paid **Bi-weekly**. To determine the approximate annual salary, multiply the rate shown by 26. To determine the approximate monthly salary, multiply the rate shown by 26 and divide by 12. Some positions are paid **Monthly**, some are paid **Daily**, some are paid **Hourly**. The **type** of pay is indicated between the columns for Low Rate and High Rate.

The **position** column indicates the number of *budgeted* positions. This is NOT the number of available positions. Even though there may be no budgeted positions, there may still be jobs available in those classifications.

Exempt means that the classification is not subject to the Civil Service testing process. The people who work in exempt positions are either elected or appointed. No testing is handled by the Department of Human Resources for exempt positions. DO NOT file courtesy cards for these classifications.

If you have any questions about the information in this Index, please contact the Department of Human Resources at (415) 557-4800.

JOB CODE (CLASS) INDEX

2002/2003

October 2002

INFORMATION INCLUDED IN THIS INDEX IS SUBJECT TO CHANGE DURING THE FISCAL YEAR.

The index has two parts: 1) City and County classifications (job codes) listed in alphabetical order by job title; 2) classifications listed in numerical order by job code. The information is the same in each part, just arranged differently. There are separate alphabetical and numerical listings of classifications used exclusively by the San Francisco Unified School District and San Francisco Community College District, and the San Francisco Trial Courts. The Department of Human Resources does not administer salaries for these departments. Contact the School District or Trial Courts personnel office for salary or other information about positions in those departments.

Rates of pay shown in this index are those in effect at the end of the fiscal year. The majority of classes are represented by labor organizations which negotiate the wages, benefits, terms and conditions of employment for various bargaining units. As a result, various bargaining units may include classifications with different rates of pay and/or wage increases which go into effect at different times in the fiscal year. For the most current salary information please refer to the online version of the Compensation Manual at www.sfgov.org/dhr/compmanual/.

Most positions are paid Bi-weekly. To determine the approximate annual salary, multiply the rate shown by 26. To determine the approximate monthly salary, multiply the rate shown by 26 and divide by 12. Some positions are paid Monthly, some are paid Daily, some are paid Hourly. The type of pay is indicated between the columns for Low Rate and High Rate.

The **position** column indicates the number of budgeted positions. This is NOT the number of available positions. Even though there may be no budgeted positions, there may still be jobs available in those classifications.

Exempt means that the classification is not subject to the Civil Service testing process. The people who work in exempt positions are either elected or appointed. No testing is handled by the Department of Human Resources for exempt positions. DO NOT file courtesy cards for these classifications.

If you have any questions about the information in this Index, please contact the Department of Human Resources at (415) 557-4800.

JOB CODE (CLASS) INDEX

2003/2004

December 2003

INFORMATION INCLUDED IN THIS INDEX IS SUBJECT TO CHANGE DURING THE FISCAL YEAR.

The Job Code Index has two parts: 1) City and County job codes listed in alphabetical order by job title; 2) City and County job codes in numerical order by job code. The information is the same in each part, just arranged differently. There are separate alphabetical and numerical listings of classifications used exclusively by MTA, the San Francisco Unified School District, San Francisco Community College District, and the San Francisco Trial Courts. The Department of Human Resources does not administer salaries for the School Districts or Trial Courts. Contact the School Districts or Trial Courts personnel office for salary, or other information about positions in those departments.

Rates of pay shown in this index are those in effect at the end of the fiscal year. The majority of classes are represented by labor organizations, which negotiate the wages, benefits, terms and, conditions of employment for various bargaining units. Rate of pay may change at different times during the year as a result of negotiated pay increases. For the most current salary information please refer to the online version of the Compensation Manual at www.sfgov.org/site/uploadedfiles/dhr/compmanl.pdf

Most positions are paid bi-weekly. To determine the approximate annual salary, multiply the rate shown by 26. To determine the approximate monthly salary, multiply the rate shown by 26 and divide by 12. Some positions are paid monthly, some are paid daily, and some are paid hourly. The type of pay is indicated between the columns for Low Rate and High Rate.

The position column indicates the number of budgeted positions. This is NOT the number of available positions. Although there may not currently be any permanently budgeted positions in a class, there may still be jobs available in those classifications.

Exempt means that the classification is not subject to the Civil Service testing process. Employees in exempt positions are either elected or appointed. No testing is handled by the Department of Human Resources for exempt positions.

If you have any questions about the information in this Index, please contact the Department of Human Resources at (415) 557-4800.
